CORPORATE PRESENTATION

September 2023

- AntarChile is a Chilean holding company controlled by the Angelini Group. The company is the vehicle through which the Angelini Group controls Empresas Copec, one of the largest companies in Chile.
- AntarChile is a passive holding. Even though the company has a portfolio of investments, its stake in Empresas Copec represents 98.9% of its consolidated assets.
- Given AntarChile's growth and profitability comes mainly from Empresas Copec, the company has an active role in shaping the strategy and administration of Empresas Copec via the involvement of AntarChile management and directors in the board of the main subsidiaries.

¿WHY THE FORESTRY INDUSTRY? COMPETITIVE ADVANTAGES

Location of forests allows fast growth rate and short harvest cycle.

Largest owner of forestry land in the southern cone (951 thousand hectares planted).

Logistic competitiveness due to short distance from forest - mills – ports.

Product offering allows value maximization of forest base: Pulp, panels, timber, energy.

¿WHY FUEL DISTRIBUTION?

Fuel Distribution business is carried out by several companies which distribute and commercialize liquid fuels, liquified petroleum gas and natural gas.

Main points of the strategy of this business include:

- > Long term approach of low unit margin.
- > Strong brand in every country it participates.
- > Constant innovation in product offering, technology and service.
- > Combination of retail business with industrial sales.

As of June 2023, the LTM EBITDA of fuel distribution business of Empresas Copec was US\$1,203 million.

EBITDA as of June 2023 (LTM)

Includes liquid fuels, liquid petroleum gas, natural gas, and infrastructure.

(* EBITDA 2023 doesn't include MAPCO (US\$ 34 million).

GEOGRAPHIC LOCATION

Focus on Innovation

Amid the energy and mobility transition, Copec turned to innovation to transform

Context of transformation

- > The energy and mobility transition from fuels to electricity poses a significant threat to the fuel retail industry.
- > Fossil fuel demand will peak within the next decade.
- > Oil demand in road transport will peak before 2025 and then decline by 2040 by -25%.
- > Electric vehicles (EV) adoption is accelerating driven by lower battery costs, greater EV model offerings, and further supporting regulation.

COPEC created a 3-pillar growth platform to drive innovation

- 1 Emerging and existing mobility modes via an integrated ecosystem while embracing electrification of transport.
- 2 Customer experiences that simplify and delight at existing and new touchpoints building on the company's "First in Services" ethos.
- 3 Decarbonized, decentralized, and democratic access to energy for residential communities, commerce, and industry.

Recent investments and divestments

Blue Express

- > In 2022, the purchase of Blue Express was closed for an amount of approximately CLP\$ 221,000 million (approx. US\$ 252 million).
- > Blue Express is a last mile company in Chile, specialized in logistics services for e-commerce and courier services.
- > Today there are 211 Blue Express pick up-delivery points in the Copec station network, and it is expected to complete rollout by the end of the year.

Ampere Energy

- > Copec announced control of the company Ampere Energy, leader in the field of smart energy storage in Spain, which is expanding its geographic presence in Latin America and other markets.
- > Copec entered the Valencia-based firm in the second half of 2019, by acquiring 13.5% and now reaches a 65.2% share. The acquisition has the goal to accelerate Copec's energy transition process and expand its international positioning in the sector.

Sale of Mapco

- > Copec announced the sale of 100% of Mapco to Circle K Inc and majority shareholders of Majors Management.
- > The price of this transaction will be approximately US\$725 million and will have a preliminary profit before taxes of US\$ 100 million.
- > Closing of the operation is expected during 4Q23.

ANTARCHILE Concern about reducing holding discount

ANTARCHILE HOLDING DISCOUNT as of August 31th 2023

*The IPSA Index seeks to measure the performance of the largest and most liquid stocks listed on the Santiago Exchange. The index is rebalanced semi-annually after the close on the third Friday of March and September. As part of the rebalancing process, the index composition, and constituent stock weights are updated.

ANTARCHILE Concern about reducing holding discount

- Between 2015-2020 AntarChile stock price in CLP was highly correlated with the pulp price ($R^2 = 0.86$).
- In recent years, the correlation has not been significant as it has historically been. However, since April 2023, this significant correlation has been observed once again.

Correlation between Pulp Price vs AntarChile Stock Price in CLP

AntarChile announces a share repurchase program

At the extraordinary shareholders meeting (EGM) held on 29 July 2021, a share repurchase program was approved in accordance with the conditions defined by Chilean Law. The main terms of the buyback program are:

- 5 year duration.
- Maximum repurchase = 5% of total stock.
- Maximum value = <25% of retained earnings.
- In compliance with Chilean law, there are two mechanisms to implement the repurchase program:
 - > Shares may be repurchased directly on the stock exchange. The maximum amount to be purchased during a twelve-month period is 1% of total shares. The maximum daily amount to be purchased is 25% of the average daily traded volume (based on the previous 90 days).
 - > Shares may also be purchased through a Tender Offer, in accordance with the Chilean regulation on public offering of shares.
- The shareholders authorized the Board of Directors to:
 - > Repurchase, in a 12-month period, up to 1% of stocks directly from stock exchange, without applying any pro rata scheme.
 - > Sell, in a 12-month period, up to 1% of stock directly from stock exchange, without implementing a preferential offering scheme to current shareholders.
- Repurchased shares have no economic or political rights.
- The company has a 2-year period from the purchase date to sell the shares; if that doesn't happen, the shares will automatically be cancelled.

AntarChile starts the share repurchase program

- On December 13th, 2021, AntarChile activated its first ever buyback plan, in accordance with the repurchase program approved by the shareholders meeting.
- As of June 30th, 2023, AntarChile has bought 2,068k shares, which represent the 0.45% of the total shares (CLP\$ 14,483 million).

- > In December 2022, AntarChile S.A. was selected as a constituent of the Dow Jones Sustainability Indices (DJSI) for **Chile and MILA**.
- > Dow Jones Sustainability Chile Index has 24 members and Dow Jones Sustainability MILA Pacific Alliance Index has 68 members.
- > AntarChile was selected as a member of the S&P Global Sustainability Yearbook 2023, which includes 710 companies out of over 7,822 evaluated. To be part of the S&P Global Sustainability Yearbook 2023, companies must be within the top 15% of their industry ranking and, at the same time, within the top 30% relative to the highest score.

One significant milestone was the certification of Arauco as the first carbon neutral company in the forestry industry.

Arauco first carbon neutral forestry company

- > In 2020, Arauco became the first forestry company in the world to certify its carbon neutrality and has set the goal of being nature net positive by 2050.
- > In 2021, the company takes on new commitments to achieve a trajectory of emissions reduction by 2030.
- > Arauco attended COP27 and committed to being Nature Net Positive, which means being a company that generates an overall positive impact for the planet and people, with a strategy based on three dimensions: water management, biodiversity conservation, and reduction of CO₂ in the atmosphere.
- > On April 2023, Arauco issued its first sustainable bond in the Chilean market.

Responsible use of resources

Water Management

- > In Arauco, the management and protection of watercourses are carried out through rigorous monitoring of management practices and the implementation of a policy for delineation and prioritization of watersheds.
- > The company maintains a permanent commitment to the optimization and protection of this vital element.

Arauco water consumption (m³ million)

Biodiversity conservation

- > Arauco maintains 26% of its territory as wild forest and conservation areas.
- > Arauco has designed a strategy for the prevention and control of wildfires.
- > Arauco allocated US\$ 84 million to the forest fire protection plans.

Conscious use of energy

- > The total energy consumption in 2022 was 108 million gigajoules (GJ), a figure 3.8% lower than the previous year.

Empresas Copec energy consumption (Gigajoules)

- Renewable
- Non renewable
- Sale of energy for electricity, heating cooling and steam

Best practices in governance

Corporate governance

- > Best board practices.
 - Diversity in terms of skills, experience, age and gender.
 - Independent Board Members.
 - Non-executive Board Members.
- > Systematic documentation of Corporate Governance principles.
- > Permanent external assessment of audit, risk management and compliance.
- > Solid relationship with stakeholders.
- > PWC certification of Arauco's carbon neutrality.
- > Empresas Copec received "La Voz del Mercado" award for best corporate governance practices according to a survey made to directors, managers, academics and financial analysts. This recognition is promoted by EY and the Santiago Stock Exchange.

Embracing change

- > Copec it is becoming a leader in new mobility technologies.
 - Redefines its mission, aiming to become a mobility company.
 - Builds the Voltex EV charging network, the longest in LatAm with 1,400 km of the territory.
 - Aims to extend charging points beyond the gas stations.
 - Signs a Electromobility Public-Private Partnership with Chilean Government.
 - Invests in complementary emerging technologies.

Social

- > In 2022, Empresas Copec made donations amounting to US\$435.2 thousand.
- > AntarChile made donations amounting to US\$25.7 thousand.
- > Long-term relationship with communities, based on participation and dialogue.
- > Strong support for diverse educational projects and initiatives.

Empresas Copec implements plans and programs with specific goals that are in line with the United Nations Sustainable Development Goals (SDGs).

> Support for the Foundations: Belén Educa, Enseña Chile, Arauco Educational, Viva Leer and Terpel.

> At Empresas Copec, 22.2% of the Boards of Directors is composed of women.

> Arauco's Integrated Water Resource Management System.

> Renewable energy supply and Voltex network expansion in Latam.

> Guaranteed minimum wage plan for attendants and contractors of Copec

> Progress of Wind Copec in the pursuit of business diversification and new technologies.

> Hílram Arauco and E2E industrialized construction system.

> Comprehensive management of hazardous waste nationwide by Via Limpia affiliated.

> Arauco Nature Net Positive Commitment and Copec began to develop a climate change strategy.

> Maintenance of High Conservation Value Areas in Arauco.

> Association with different institutions, foundations and guilds.

MAPA Project - Pulp

- > New 1.56 million ton short fiber line in Arauco Mill, Line 3. Considers the closure of Arauco's 290 th. ton Line 1 of short fiber pulp. Thus, the net increase in production will be 1.27 million tons.
- > Efficient cash cost and estimated investment of approximately US\$ 2.8 billion.
- > Includes an electric cogeneration plant based on biomass that will generate a surplus of approximately 132 MW.
- > Mapa started operations in December 2022.
- > Production is steadily on the rise as projected, with no major issues encountered. By July, the total production had reached around 325,000 tons, with prime pulp accounting for 82.1%, equivalent to 267,000 tons.
- > Full capacity is expected to be achieved in the first quarter of 2024.

Source: Empresas Copec

State of the art productive facility to increase 33% the pulp capacity at a low cash cost

Sucuriú Project - Pulp

- > Collaboration agreement signed with Mato Grosso do Sul government of Brazil as part of the challenge of seeking new opportunities that will contribute to the development of the subsidiary. Brazil is an important center for the Company's global strategy.
- > Important preparatory step that will allow to continue the evaluation of building a new pulp mill in Brazil.
- > This initiative is subject to several variables that are under study, including market conditions, the environmental impact permit, evaluation of timber supply and the approval by the Board of Directors.
- > If conditions permit, construction of this new mill may begin in 2025. Estimated investment of US\$ 3 billion, and the facility would have a production capacity of 2.5 million tons per year of short fiber.
- > Would be located in the central-western state of Mato Grosso do Sul, 50 km from the town of Inocência, an area that offers a number of logistical benefits.

Source: Empresas Copec

State of the art productive facility to increase 48% the pulp capacity

Zitácuaro Project

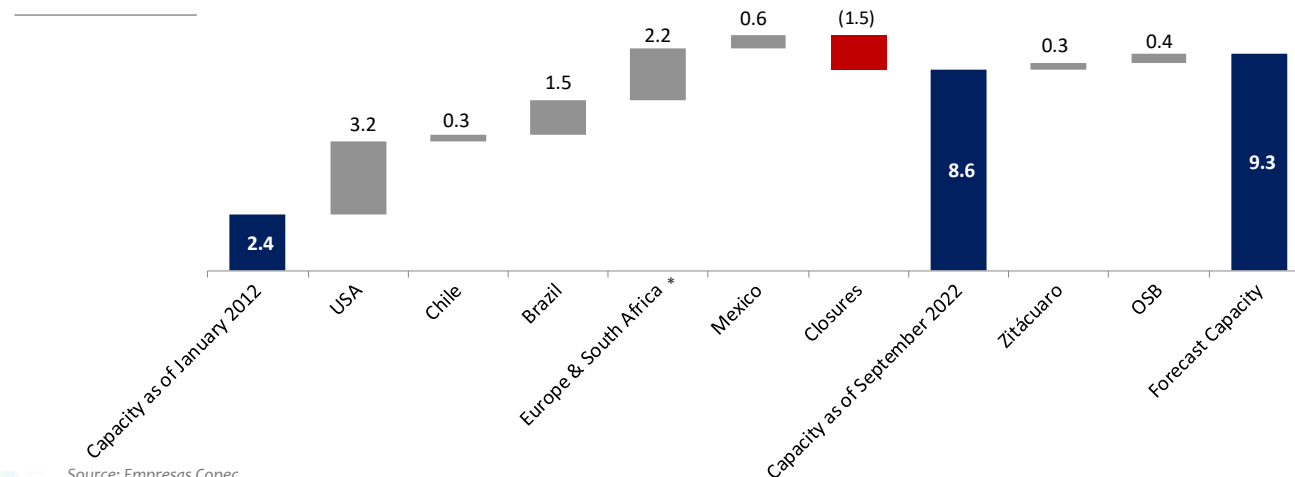

- > On September 27, 2022 Arauco's Board of Directors approved the construction of a new production line of MDF board.
- > The project contemplates an estimated investment of US\$235 million and a capacity production of 300 th. m³ per year of which 150 th. m³ will be melamine.
- > Start up expected during the second quarter of 2025.

OSB Panel plant in Ñuble

- > On October 18, 2022 Arauco submitted the environmental impact form to develop an OSB Manufacturing Mill in the region of Ñuble Chile.
- > The project estimates a potential investment of US\$280 million and capacity of 360 th. m³ per year.

Acquisition of MINA JUSTA Copper Mining

- > On May 2018, Alxar and Empresas Copec signed the agreement to acquire 40% stake in Cumbres Andinas, subsidiary of Minsur.
- > The price paid was US\$ 182.4 million approximately.
- > Alxar and Minsur invested US\$1,600 million in the construction of Mina Justa. Project finance was US\$900 million and the remaining amount was financed through capital contributions proportional to ownership percentage in three years.
- > Mina Justa is an open pit copper mining project located in Ica, Peru.
- > World class project:
 - Low cash cost
 - High grade
 - Low development risk
 - LOM of 16 years and significant exploration potential
 - Total resource base of 432 million tons and a copper grade of 0.75%.
- > Average production of app 115 thousand tons per year of fine copper.
- > Mina Justa started its production stage in March 2021, making the first sales and shipments of copper concentrate and cathodes in July, amid a very positive price scenario.
- > During 2022, Mina Justa sold 28.2 and 97.1 thousand tons of cathodes and concentrates, respectively.
- > In 2022, a dividend for US\$ 132 million was distributed to Empresas Copec, and a similar amount is expected for 2023.

- > AntarChile's affiliates involved in the power generation market are Colbún and Arauco Bioenergía, both of which utilize conventional energy as well as renewable non-conventional energy sources.
- > Colbún has an installed capacity of 3,443 MW, being the third largest generator of the National Electric System (SEN), with a market share of 16%.
- > Arauco Bioenergía, consistent with its environmental sustainability policies, generates power out of biomass. Its installed capacity is of 779 MW.
