CORPORATE PRESENTATION

February 2022

BACKGROUND review

- AntarChile is a Chilean holding company controlled by the Angelini Group. The company is the vehicle through which the Angelini Group controls Empresas Copec, one of the largest companies in Chile.
- AntarChile is a passive holding. Even though the company has a portfolio of investments, its stake in Empresas Copec represents 98.7% of its consolidated assets.
- Given AntarChile's growth and profitability comes mainly from Empresas Copec, the company has an active role in shaping the strategy and administration of Empresas Copec via the involvement of AntarChile management and directors in the board of the main subsidiaries.

¿WHY THE FORESTRY INDUSTRY? COMPETITIVE ADVANTAGES

Location of forests allows fast growth rate and short harvest cycle.

Largest owner of forestry land in the southern cone (1 m hectares).

Logistic competitiveness due to short distance from forest - mills – ports.

Product offering allows value maximization of forest base: Pulp, panels, timber, energy.

SHORT HARVESTING CYCLE (YEARS)

¿WHY FUEL DISTRIBUTION?

Fuel Distribution business is carried out by several companies which distribute and commercialize liquid fuels, liquified petroleum gas and natural gas.

Main points of the strategy of this business include:

- > Long term approach of low unit margin.
- > Strong brand in every country it participates.
- > Constant innovation in product offering, technology and service.
- > Combination of retail business with industrial sales.

As of September 2021, the LTM EBITDA of fuel distribution business of Empresas Copec was US\$1,141 million

EBITDA as of September 2021 (LTM)

Includes liquid fuels, liquid petroleum gas, natural gas, and infrastructure

- > In November 2021, AntarChile S.A. was selected as a constituent of the Dow Jones Sustainability Indices (DJSI) for Chile and MILA.
- > Dow Jones Sustainability Chile Index has 27 members and Dow Jones Sustainability MILA Pacific Alliance Index has 68 members.
- > In February 2022, AntarChile was selected as a member of the S&P Global Sustainability Yearbook 2022, which includes 716 companies out of over 7,500 evaluated. AntarChile is ranked in the top 11% of its industry, industrial conglomerates.

One significant milestone was the certification of Arauco as the first carbon neutral company in the forestry industry.

Arauco first carbon neutral forestry company

- > In 2020, Arauco's carbon neutrality was certified by PWC using a methodology designed by Deloitte. Arauco became the first forestry company worldwide to achieve this goal, fulfilling the announcement made at 2019 UN Climate Action Summit.
- > Carbon neutrality was achieved with net absorption of 2.6 MtCO₂e in 2018.
- > 92% of Arauco's energy sources in Chile are clean and renewable.
- > Objective is to continue reducing emissions at an annual rate of 2.5%

(*) Scope 1 covers direct emissions from owned or controlled sources. Scope 2 covers indirect emissions from the generation of purchased electricity, steam, heating and cooling consumed by the reporting company. Scope 3 includes all other indirect emissions that occur in a company's value chain.

Responsible use of resources

Water

Water Management Strategy in Arauco is based on:

- > Knowledge of physical processes and environment interactions.
- > Preventive planning of water needs.
- > Collaboration with local communities regarding their access to water.
- > 0.2% reduction in water consumption in 2020 and 4.1% in 2019.

Empresas Copec water consumption (m³ million)

Land Management

- > 100% of Arauco's forests are Forest Stewardship Council® and/or Programme for the Endorsement of Forest Certification®
- > Arauco maintains 29% of its territory as wild forest and conservation areas.
- > Arauco continually reviews its fire prevention and suppression programs.
- > Recent developments related to equipment, training and coordination with communities cost US\$ 55m for the 20-21' season.

Conscious use of energy

- > Renewable sources account for 87% of the energy used by Empresas Copec.
- > The company is one of the biggest NCRE in Chile, with an installed capacity of 781 MW, and 277 MW contributed to the power Grid.

Empresas Copec direct energy consumption (Thousands Terajoules)

Best practices in governance

Corporate governance

- > Best board practices
 - Diversity in terms of skills, experience and age.
 - Independent Board Members.
 - Non-executive Board Members.
- > Systematic documentation of Corporate Governance principles.
- > Permanent external assessment of audit, risk management and compliance.
- > Solid relationship with stakeholders.
- > PWC certification of Arauco's carbon neutrality.
- > For third year in a row, Empresas Copec received "La Voz del Mercado" award for best corporate governance practices according to a survey made to directors, managers, academics and financial analysts. This recognition is promoted by EY and the Santiago Stock Exchange.

Embracing change

- > Copec it is becoming a leader in new mobility technologies.
 - Redefines its mission, aiming to become a mobility company.
 - Builds the Voltex EV charging network, the longest in LatAm with 1,400 km.
 - Aims to extend charging points beyond the gas stations.
 - Signs a Electromobility Public-Private Partnership with Chilean Government.
 - Invests in complementary emerging technologies.

Social

- > US\$23 million in community and social development investments in 2020.
- > Long-term relationship with communities, based on participation and dialogue.
- > Strong support for diverse educational projects and initiatives.
- > Staff training reached 68% of employees in 2020.

Empresas Copec implements plans and programs with specific goals that are in line with the United Nations Sustainable Development Goals (SDGs).

> Orizon and the technological Center advance in food innovation.

> Empresas Copec and its affiliates contribute with initiatives to overcome the Covid 19 pandemic.

> Support for the Foundations: Belén Educa, Arauco Educational, Viva Leer and Terpel.

> Arauco's Integrated Water Resource Management System.

> Copec and Terpel invest in electromobility and new energies. Arauco develops Viento Sur Wind Park Project.

> Modernization and Expansion of the Arauco Plant (MAPA Project).

> Empresas Copec contributes to the Copec UC Foundation. Arauco begins to operate the Dissolving Pulp Plant.

> Industrialized construction housing system based on wood panels by E2E.

> Comprehensive management of hazardous waste nationwide by Via Limpia affiliated.

> Arauco certified carbon neutrality in 2020 and Copec began to develop a climate change strategy.

> Maintenance of High Conservation Value Areas in Arauco.

> Association with different institutions, foundations and guilds.

AntarChile announces a share repurchase program

At the extraordinary shareholders meeting (EGM) held on 29 July 2021, a share repurchase program was approved in accordance with the conditions defined by Chilean Law. The main terms of the buyback program are:

- 5 year duration
- Maximum repurchase = 5% of total stock.
- Maximum value = <25% of retained earnings.
- In compliance with Chilean law, there are two mechanisms to implement the repurchase program:
 - > Shares may be repurchased directly on the stock exchange. The maximum amount to be purchased during a twelve-month period is 1% of total shares. The maximum daily amount to be purchased is 25% of the average daily traded volume (based on the previous 90 days).
 - > Shares may also be purchased through a Tender Offer, in accordance with the Chilean regulation on public offering of shares.
- The shareholders authorized the Board of Directors to :
 - > Repurchase, in a 12-month period, up to 1% of stocks directly from stock exchange, without applying any pro rata scheme.
 - > Sell, in a 12-month period, up to 1% of stock directly from stock exchange, without implementing a preferential offering scheme to current shareholders.
- Repurchased shares have no economic or political rights.
- The company has a 2-year period from the purchase date to sell the shares; if that doesn't happen, the shares will automatically be cancelled.

AntarChile starts the share repurchase program

- On December 13th, AntarChile activated its first ever buyback plan, in accordance with the repurchase program approved by the shareholders meeting.
- The company has been buying back an average 13k shares per day since then.
- As of February 14th, AntarChile has bought 520k shares, which represent the 0.11% of the total shares (CLP\$ 3,395 million).

MAPA Project - Pulp

- > New 1.56 million ton short fiber line in Arauco Mill.
 - > Considers closure of Arauco's 290 th. Ton line 1 of short fiber pulp, once the new line is operating. Thus the net increase in production will be 1.27 million tons.
 - > It includes an electric cogeneration plant based on biomass that will generate a surplus of approximately 132 MW.
 - > Estimated investment of US\$ 2.35 billion.
 - > Already under construction.
- > In October 2018, Arauco signed the main contracts with two of the leader suppliers of pulp industry equipment worldwide: Andritz and Valmet.
 - > The contracts amounted approximately to € 680 million.
 - > 90.0% progress as of October 2021.
 - > Expected start-up in March 2022.

Source: Empresas Copec

State of the art productive facility to increase 31% the pulp capacity at a low cash cost

Valdivia project- Dissolving pulp

- > Conversion of the Valdivia mill into a textile pulp mill, which currently produces 550 th. ton of pulp.
- > Dissolving pulp is a product used in the textile industry as a substitute for cotton.
- > It provides flexibility to produce either dissolving or paper grade.
- > Arauco was the first company to produce this kind of pulp in Chile.
- > The Dissolving Pulp Mill project was completed in February 2020 with an investment of US\$ 195 million and started operations in June.
- > At the beginning of June, the first dissolving pulp bales started coming out from the Valdivia mill.

Source: Empresas Copec

This kind of pulp is used in the textile industry to soften, shine and purify fibers. It can also be used in the food, cellophane and flexible packaging industries, among others.

Growth in the Panel Division

Grayling:

- > Total investment of approx. US\$ 450 million, with an installed capacity of 800 th. m³ /year.
- > It was inaugurated on April 2019
- > The mill is currently producing and commercializing products.

Masisa do Brasil:

- > Arauco acquired Masisa's assets in Brasil in US\$ 102.8 million
- > Transaction includes two panel mills, at Parana and Rio Grande do Sul.
- > Capacity of 310 th. m³ in MDF and 410 th. m³ in MDP a year

Masisa in Mexico

- > Arauco acquired Masisa's assets in Mexico in US\$ 160 million.
- > Transaction comprises two panel mills, at Durango and Zitacuaro.
- > Capacity of 315 th. m³ in PB and 250 th. m³ in MDF a year

Acquisition of MINA JUSTA Copper Mining

- > On May 2018, Alxar and Empresas Copec signed the agreement to acquire 40% stake in Cumbres Andinas, subsidiary of Minsur.
- > The price paid was US\$ 182.4 million approximately.
- > Alxar and Minsur invested US\$1,600 million in the construction of Mina Justa. Project finance was US\$900 million and the remaining amount was financed through capital contributions proportional to ownership percentage in three years.
- > Mina Justa is an open pit copper mining project located in Ica, Peru.
- > World class project:
 - Low cash cost
 - High grade
 - Low development risk
 - Significant exploration potential
- > Average production of app 115 thousand tons per year of fine copper.
- > Mina Justa started its production stage in March 2021, making the first sales and shipments of copper concentrate and cathodes in July, amid a very positive price scenario. The operation is still in a ramp-up process, while working on updating the production plan for the life of the mine.

- > AntarChile's affiliates involved in the power generation market are Colbún and Arauco Bioenergía, both of which utilize conventional energy as well as renewable non-conventional energy sources.
- > Colbún has an installed capacity of 3,238 MW, being the second largest generator of the National Electric System (SEN), with a market share of 15%.
- > Arauco Bioenergía, consistent with its environmental sustainability policies, generates power out of biomass. Its installed capacity is of 606 MW.
